SUMMARY

David is a Project Manager and Senior Healthcare Architect with more than 20 years of healthcare experience working with some of the top hospitals and medical institutions in the United States and around the world. Since joining SAA, he has completed institutional projects such as the A&A to Sengkang Primary School and is currently working on the \$1.7 billion Woodlands Health Campus in Singapore. Additionally, David is a licensed Architect with the American Institute of Architects (AIA) in New York City, a LEED Accredited Professional and a member of the Royal Institute of British Architects.

David's key healthcare experiences include leading the Medical Planning team for Sengkang Hospital in Singapore and multiple hospitals in New York. His in-depth skills in healthcare comprise of medical campus master planning, design feasibility, spatial awareness, implementation and following through from concept to construction for projects of all sizes and complexity.

As a Principal at SAA in charge of numerous healthcare projects on very large scales, he is a trusted and reliable member of the company, able to complete projects efficiently and to the highest of standards.
